

3 different programs to meet your dog's needs:

Our mission at Green Acres K-9 Resort is to be dedicated to providing your canine companion with exceptional, loving care in a fun and friendly environment. We take pride in our clean, spacious and comfortable facility, professional staff and our ability to honestly say "We LOVE your dog!".

To show our dedication to our customer we have developed 3 programs to meet the needs of caring for your dog.

Basic boarding serves the basic needs of over night care for all dogs. All basic boarding dogs are taken to larger exercises areas 2x a day to stretch their legs, relieve themselves and have time to sniff, smell and run around in individual runs.

Boarding with daycare is the next level of care. This allows dogs with approved socially accepted behaviors time to be out of their kennel, interacting with staff and other dogs and meeting their needs to have exercise.

Daycare for dogs is a great choice for dog owners that need a place their dog can run, play and interact with other social dogs during the day. This service is great for active dogs that need extra attention during the day or for senior dogs that might need someone to keep an eye on medical or behavior conditions.

Please be prepared to tell us if you would like your dog in Basic Boarding, Boarding with Daycare or if you'll be dropping off for a day of Daycare when you call for reservations.
